---

Dear Sir/Madam,

Thank you for the opportunity to apply for Software Developer/Engineer position in your organization. After reviewing your job description, it's clear that you're looking for a candidate that is extremely familiar with the responsibilities associated with the role and can perform them confidently. Given these requirements, I am sure that I am a perfect candidate for this role.

I have 3 years of experience as a Web Developer in the information technology and services industry. I am strongly skilled in C#, Asp.Net, Asp.Net Core (MVC, Web API), AngularJS and SQL. I am engineering professional with a Higher National Diploma in Computing at Singapore based, LITHAN Academy from Myanmar.

I love to learn new technologies and eager to accept challenges. I do love programming. I am a fast learner, a motivated and honest person. I believe in teamwork. I can handle and solve the problems very well and also able to finish my tasks on time.

I also have strong communication skills because I came from Social Enterprise Company, one of my previous job. In my previous work, I have long-term collaboration with other development teams, program team, design team, IoT team, QA team and others. Based on my experience, I believe that I could be a good fit for your position.

With this skill I have, I am confident that I can become a great asset to your organization and I promise to do my best in helping your organization move forward. After reviewing my resume, I hope you will agree that I am an excellent candidate that you are looking for. I would like to request a meeting to discuss how I can help to meet your goals.

Thank you in advance and hope to hear from you soon.

**With Best Regards,**

**Min Thant Aung Aung**
